Personal Projects

MineSweeper (Java)

- Minesweeper is a single-player puzzle video game. The objective of the game is to clear a rectangular board containing hidden "mines" or bombs without detonating any of them, with help from clues about the number of neighboring mines in each field. The game originates from the 1960s, and has been written for many computing platforms in use today. It has many variations and offshoots.

Old Scroll (Php, JavaScript, Html, Css, Mysql)

- Old Scroll is an Online Book Store that offers A regular Books With Shipping And Digital Books that Can Be Downloaded As a Pdf File.

Final Project with GPA of 85.

Who Want to Be A Millionaire (Python)

- This is a program, written in Python, that allows you to play 'Who Wants to be a Millionaire' in your command line! The game comes with all the bells and whistles you'd expect from the real thing. Including the three lifelines: 50/50, Phone a Friend

Italy (Html, Css, JavaScript)
